**We've partnered with Adur & Worthing council to plant over
40 fruit & nut trees in Open Spaces**

Community orchards are a vital part of the puzzle for future-proofing our cities. We're going to need them to provide shade in the summer to lower temperatures, draw up excess rainwater to prevent flooding and even provide us with local, zero miles healthy food. Not to mention providing a beautiful space to spend time in.

Give something back to the trees by learning how to look after them. Come along for FREE TRAINING provided by orchard experts. Bring gloves if you have them.

This session is roving across 3 sites
